“ *Robbie Dale, our day's began in Junior High. We became inseparable if I wasn't at your house you were at mine. Brother the times we shared, the memories I forever will hold in my Heart. From our time of riding bikes to driving to becoming Adults (somewhat) my life was enriched because GOD placed you in my Life. The emptiness in my Heart only GOD can fill and that he shall. I am blessed to have called you Brother. I forever will love you and miss you. Until we meet again*

“ *For the past 57 years you, Rob, blessed my life more than words can express. God put our family together in such a special way and we were truly blessed to have each other. You are now home with dad in Heaven where we will be reunited one day. After spending more time together since I've retired, there will be an even greater hole in my life that will never be filled again. But by God's grace that you and I frequently discussed we will be together again one day for eternity. I will love you forever as you were such a great brother, son, dad, friend and all around good person!❤️*

“ *Robbie, I have often thought of you and hoped to see you again. You were always so sweet & respectable to me. You went to school with my son Robbie Wiford who left this world in 1994. You & I worked at the Boron plant in 78-83 & you always did a good job. You will always have a Special place in my heart. Love you , Winnie Wiford Hunt*

“ *Went to school with Robbie. He graduated with my sister Paula (who passed away in 1998). When I was transferred from the Miami plant to the Boron plant, Robbie came to my department early one morning and told me stories of my sister when they were in marching band together. I laughed so hard! And I cried, but not from sadness, but because someone still remembered my sister with a smile. Even when he felt bad, he still had that Robbie Moss sense of humor. I will remember him with a smile always!*
